

Perpetual Progress

Statistical Section

The Los Angeles community is an international hub where ideas, views, and cultures have intersected and fused for decades, driving innovation and forward thinking. Inspired by our ever-evolving community, LACERA builds on the strong foundation created by those who came before us. We constantly strive to meet the changing needs of our membership by developing services that exceed their expectations.

High tech fabrics have been used in athletic and weatherproof wear for decades, but the next wave in smart textiles includes electronics embedded through conductive yarn or 3D printing. Some smart textiles react to the wearer, like fabrics that change color with body heat or help regulate body temperature, while other innovations include programmable smart fabric connected to social media.

Introduction

The objective of the Statistical Section is to provide historical perspective, context, and detail to assist in utilizing the Basic Financial Statements, Notes to the Basic Financial Statements, and Required Supplementary Information to understand and assess the status of the Pension Plan and OPEB Program administered by LACERA as of the fiscal year-end. Statistical data is maintained within the Member Workspace (Workspace) platform. Workspace is a sophisticated in-house data management system in which LACERA actively maintains member-specific information, comprehensive plan membership records, and related member-specific documents. This section reports the most current membership status information for each type of member (general, safety, active, retired, etc.).

The statistical information provided here is divided into Financial Trends Information and Operating Information.

Financial Trends Information is intended to assist readers in understanding how LACERA's financial position has changed over time:

- *Changes in Fiduciary Net Position – Pension Plan and Changes in Fiduciary Net Position – OPEB Trust* presents additions by source, deductions by type, and the total change in Fiduciary Net Position for each year.
- *Pension Benefit Expenses by Type* presents retirement benefits, lump-sum death benefits, and refund deductions by type of benefit (e.g., service and disability retirement from general and safety plans).

Operating Information provides contextual information about LACERA's operations and membership to assist readers in using financial statement information to comprehend and evaluate LACERA's fiscal condition:

- *Active Members* provides membership statistics for active vested and active non-vested members. In addition, members who are not considered retired are included as terminated members and are defined as vested members with deferred benefits and non-vested members with inactive benefits.
- *Retired Members by Type of Pension Benefit and Retired Members by Type of OPEB Benefit* presents benefit information for the current year by benefit type and dollar level.
- *Schedule of Average Pension Benefit Payments* presents the average monthly benefit, average final salary, and number of retired members, organized in five-year increments of credited service.
- *Active Members and Participating Pension Employers* presents the employers and their corresponding employees who are or may become eligible for Pension Plan benefits.
- *Retired Members of Participating OPEB Employers* presents the number of members enrolled in medical and/or dental/vision benefits.
- *Employer Contribution Rates* for the Pension Plan is provided as additional information.
- *Supplemental Targeted Adjustment for Retirees (STAR) Program Costs* trends the Program's costs through the current calendar year-end.
